Objective:

I am a motivated and enthusiastic software developer seeking to kickstart a career in software development in Python. I am eager to contribute to a dynamic team and gain hands-on experience in software development.

Skills:

Technical Skills:

- Python
- Database Management
- UI/UX Design
- Version Control
- Code Testing
- HTML
- CSS
- SQLite
- PostgreSQL

Soft Skills:

Leadership
Communication
Teamwork
Presentation
Collaboration
Problem Solving
Lean and Agile Methodology
Project management

Experience:

Bank of Uganda | Web Developer | November 2023 - March 2024

Projects:

1. Transport Management System

- I worked as an apprentice at the Bank of Uganda developing a solution for allowing the staff to request for vehicles for their transport needs.
- I worked with four other apprentices with whom we achieved great success.
- I was one of the participants in the boot camp phase for three months working with a group of six team members, which helped me gain a lot of experience
- I was tasked to design the UI to enhance user experience, streamlining staff requisition for a vehicle, enabling easy and quick acquisition of declined requests and approved requests including the vehicle allocated for the request made.

- By addressing these key challenges, the goal was to enhance usability, efficiency, and overall satisfaction for both staff and administrators.
- I managed to achieve this using different technologies, including
 - Django
 - Vanilla JavaScript
 - Figma boards
 - Trello boards
 - Microsoft Teams

2. Be Real Motors Spare parts company

- I was assigned to build a record management system for the Spare parts company for the sale of the items and keeping records as part of the catalyst program at Refactory Academy.

Education:

Certificate in Software Engineering, Refactory Academy Uganda June 2023 - August 2023
 Uganda Advanced Certificate of Education, Dr Obote College 2021 - 2022

Languages:

- English
